ADDRESS

To the Republicans of the 20th Congressional District.

The Republican County Committee of Clarion County declines to follow the example of the committees of Mercer and Crawford counties in their attempt to repudiate the nomination of Hon Henry C Johnson for Congress, and to call a new Convention to distract, divide and defeat the party

We appeal to them to desist in their rash attempt. Their action is revolutionary and pregnant with mischief We can have no part in it and we protest against it, for the following reasons

1st A county committee has no authority to repudiate a nomination made by a District Convention When the property their duly appointed delegates have made a nomination, it is the duty of County Committees to sustain it not to set it aside, and whenever they attempt it they usurp authority and their acts are void Their sole office is to proclaim the nomination of Mr Johnson was made by competent authority, acting within the sphere of its power and duties and is, therefore, regular and binding upon all good Republicans in the District Herein Elk out of twelve votes in regular Convention, and the secession of the three Mercer conferees could no more invalidate the act of the Convention than did the secession of the southern representatives after the election of [illegible] vitiate the acts of Congress

We copy the following from the Meadville Republican Most of the Conferees [illegible] the nine counties which selected Mr Johnson's [illegible] [illegible] and [illegible] [illegible] [illegible]

GERMAN BITTERS.

HOOFLAND'S GERMAN BITTERS,

AND

Hoofland's German Tonic,

The Great Remedies for all Diseases

OF THE

LIVER, STOMACH OR DIGESTIVE ORGANS.

HOOFLAND'S GERMAN BITTERS

Is composed of the pure juices (or, as they are medicinally termed, Extracts) of Roots, Herbs and Barks, making a preparation, highly concentrated and entirely free from alcoholic admixture of any kind

Hoofland's German Tonic,

Is a combination of all the ingredients of the Bitters, with the purest quality of *Santa Cruz Rum*, Orange, &c, making one of the most pleasant and agreeable remedies ever offered to the public. Those preferring a Medicine free from Alcoholic admixture, will use

Hoofland's German Bitters.

Those who have no objection to the combination of the Bitters, as stated, will use

Hoofland's German Tonic.

They are both equally good, and contain the same medicinal virtues, the choice between the two being a mere matter of taste, the tonic being the most palatable.

The stomach, from a variety of causes such as Indigestion, Dyspepsia, Nervous Debility, etc., is very apt to have its functions deranged. The Liver, sympathizing as closely as it does with the Stomach, then becomes affected, the result of which is that the patient suffers from several or more of the following diseases:

CONSTIPATION, FLATULENCE, INWARD PILES, FULNESS OF BLOOD TO THE HEAD, ACIDITY OF THE STOMACH, NAUSEA, HEARTBURN, DISGUST FOR FOOD, FULNESS OR WEIGHT IN THE STOMACH, SOUR ERUCTATIONS, SINKING OR FLUTTERING AT THE PIT OF THE STOMACH, SWIMMING OF THE HEAD, HURRIED OR DIFFICULT BREATHING, FLUTTERING AT THE HEART, CHOKING OR SUFFOCATING SENSATIONS WHEN IN A LYING POSTURE, DIMNESS OF VISION, DOTS OR WEBS BEFORE THE SIGHT, DULL PAIN IN THE HEAD, DEFICIENCY OF PERSPIRATION, YELLOWNESS OF THE SKIN AND EYES, PAIN IN THE SIDE, BACK, CHEST, LIMBS, ETC., SUDDEN FLUSHES OF HEAT, BURNING IN THE FLESH, CONSTANT IMAGININGS OF EVIL AND GREAT DEPRESSION OF SPIRITS.

The sufferer from these diseases should exercise the greatest caution in the selection of a remedy for his case, purchasing only that which he is assured from his investigations and inquiries possesses true merit, is skillfully compounded, is free from injurious ingredients, and has established for itself a reputation for the cure of these diseases. In this connection we would submit those well known remedies

Hoofland's German Bitters,

AND

Hoofland's German Tonic

PREPARED BY **Dr. C. M. JACKSON,**

PHILADELPHIA, PA

Twenty two years since they were first introduced into this country from Germany, during which time they have undoubtedly performed more cures, and benefited suffering humanity to a greater extent, than any other remedies known to the public.

These remedies will effectually cure Liver Complaint, Jaundice, Dyspepsia, Chronic or Nervous Debility, Chronic Diarrhoea, Disease of the Kidneys, and all Diseases arising from a Disordered Liver, Stomach, or Intestines.

DEBILITY.

RESULTING FROM ANY CAUSE WHATEVER PROSTRATION OF THE SYSTEM INDUCED BY SEVERE LABOR, HARDSHIPS, EXPOSURE, FEVERS &c

There is no medicine extant equal to these remedies in such cases. A tone and vigor is imparted to the whole system, the appetite is strengthened, food is enjoyed, the stomach digests promptly, the blood is purified, the complexion becomes sound and healthy, the yellow tinge is eradicated from the eyes, a bloom is given to the cheeks, and the weak and nervous invalid becomes a strong and healthy being.

PERSONS ADVANCED IN LIFE,

And feeling the hand of time weighing heavily upon them, with all its attendant ills, will find in the use of this BITTERS or the TONIC an elixir that will instill new life into their veins, restore in a measure the energy and ardor of more youthful days, build up their shrunken forms, and give health and happiness to their remaining years.

NOTICE.

It is a well established fact that fully one half of the female portion of our population are seldom in the enjoyment of good health; or, to use their own expression, never feel well. They are languid, devoid of all energy, extremely nervous, and have no appetite.

To this class of persons the BITTERS or the TONIC is especially recommended.

WEAK AND DELICATE CHILDREN

Are made strong by the use of either of these remedies. They will cure every case of MARASMUS, without fail.

Thousands of certificates have accumulated in the hands of the proprietor, but space will allow of the publication of but a few. Those, it will be observed, are men of note and of such standing that they must be believed.

TESTIMONIALS.

HON. GEO W WOODWARD,

Chief Justice of the Supreme Court of Pa. writes:

PHILADELPHIA, March 16, 1867

I find Hoofland's German Bitters is a good tonic, useful in diseases of the digestive organs and of great benefit in cases of debility and want of nervous action in the system.

Yours, truly,
GEO W WOODWARD

HON JAMES THOMPSON,

Judge of the Supreme Court of Pennsylvania

PHILADELPHIA April 28 1866

I consider 'Hoofland's German Bitters' a *valuable medicine* in case of attacks of Indigestion or Dyspepsia. I can certify this from my experience of it. Yours, with respect

JAMES THOMPSON

FROM REV JOSEPH H KENNARD, D D

Pastor of the Tenth Baptist Church Philadelphia

DR JACKSON—*Dear Sir* I have been frequently requested to connect my name with recommendations of different kinds of medicines, but regarding the practice as out of my appropriate sphere, I have in all cases declined; but with a clear proof in various instances and particularly in my own family, of the usefulness of Dr Hoofland's German Bitters, I depart for once from my usual course, to express my full conviction that, *for general debility of the system and especially for Liver Complaint, it is a safe and valuable preparation.* In some cases it may fail, but usually, I doubt not, it will be very beneficial to those who suffer from the above causes.

Yours very respectfully,
J H KENNARD,
Eighth below Coates Street

FROM REV E D FENDALL

Assistant Editor of Christian Chronicle Philadelphia

I have derived decided benefit from the use of Hoofland's German Bitters, and feel it my privilege to recommend them as a most valuable tonic to all who are suffering from general debility or from diseases arising from derangement of the liver.

Yours truly
E D FENDALL

Trial of Colored Zouaves

WASHINGTON, Aug 21

The examination of the colored Zouaves for rioting a week ago while a company of them from Georgetown were on their way to the Capitol to relieve the guard over the remains of Thaddeus Stevens, has been concluded. Three were fined for disorderly conduct, and sixteen others were required to give from three to five hundred dollars bail for a further hearing at the Court.

PETROLEUM MARKETS.

OFFICE OF MORNING HERALD,
TITUSVILLE, August 21—5 p m

The Petroleum market was without any well defined new characteristics to day. The feeling was, if anything, a little weaker, and the transactions were extremely meagre. At all points along the Creek the inquiry was light, and it was only in very exceptional instances that the offering prices were as high as those at the close yesterday. At Petroleum Centre two or three offers to buy were made at $4 50 and at a point north of that place there was a slight demand at $4 40, that price having been offered several times. As an indication of the constantly increasing travel between this point and Pleasantville we saw an individual enter a livery stable yesterday and inquire for *the longest horse* in the stable Upon the proprietor asking the reason for his wishing such extended facilities for travel, it was found that a party of thirteen were bound to Pleasantville and all going horseback, if a suitable animal could be procured

—A nondescript looking affair bearing the name of the "Flying Circus," is in operation at the corner of Pine and Franklin streets For a small sum, lovers of equestrianism can mount hairy, untrimmed wooden steeds of every age and color, and giving them full rein, dash about the circle, propelled by two man power at the rate of more than 240 Those wishing to learn to ride, and timid persons, can here exercise themselves with impunity

Hon Galusha A Grow was recently charged by a Democratic paper in Pittsburgh with having been an oil speculator Mr Grow replies that "the Reno Oil and Land Company (the only company in Venango county with which he ever had any connection) paid all of its debts and was regularly dissolved by order of the Court on application therefor by the board of directors Every dollar subscribed to the stock of the company was paid back in full to the subscribers

THE BENNINGHOFF ROBBERY FOUR MORE ARRESTS — The interest in the Bonnie Brook robbery, about which so much has been said and written, has by no means subsided in this section, but, on the contrary, it has been kept in a very lively state by occasional rumors of new "strikes" by the police and detectives, and by reports about the condition, prospects and intentions of the robbers who are in durance vile at Franklin Reports have been circulated within a week or two to the effect that the police were about to secure parties implicated in the robbery, about whom the public had heard nothing, and the movements of certain officers who were thought to be working up a new case were watched closely Yesterday these rumors took definite shape, three men who have been working as engineers in the vicinity of Bull Run, having been arrested on the charge of having participated in the robbery It appears that some time since Deputy Sheriff Kinney, of Petroleum Centre, got hold of a clue to what is alleged to be a gang which perpetrated the robbery, but which is wholly unconnected with that which was led by Jim Sager, of Sugertown From time to time Mr Kinney has succeeded in obtaining the information which led to the arrest above mentioned The names of the parties are suppressed at the request of their friends. The full particulars attending the implication and arrest have not yet transpired

THE great excitement at Pleasantville is not based upon a sound foundation, and we predict a collapse there soon, which will prove disastrous to many Any one who visited the place a fortnight ago, and will take the trouble to go there now, cannot fail to perceive that the excitement has fallen off almost one half Travel between that place and Titusville is not near so good now as it was two or three weeks ago The owners of stage lines are complaining of dull times The rush is over and their occupation is nearly gone. —*Petroleum Centre Record*

The above is wholesale misrepresentation, for the facts are quite the reverse as stated The "excitement" at Pleasantville, if excitement it can be called, is steadily on the increase, and travel between that place and Titusville has fully doubled within the last month Less than a dozen stages then did the business, and now more than twenty five are required, and they make three or four trips per day The *Record's* information must have come from some "reliable contraband" who has been sinking dry holes on non-producing territory, and is now experiencing a malignant attack of "sour grapes" The *Record* should employ a special correspondent, and give the public disinterested observations Petroleum Centre is a prosperous and growing town, and the capital of a large producing district, but Pleasantville holds the "champion belt" at present, and it is useless to deny it.

OYSTERS received daily at Shanke', also peaches, pears, plums, whortleberries, blackberries, watermelons, cantelopes and sweet potatoes; also fish.

An Oil Bubble Pricked

In another column will be found a communication in relation to the "Anglo American Oil Company," and we trust it will receive the attention which it merits from those most directly compromised by its transactions. The following paragraph, which we copy from the Erie *Gazette*, suggests an additional comment

"One company, the "Anglo American," already enjoys considerable notoriety in this section Its capital stock is put at $2 500,000, and as its territory cost only one third of that amount, its corporators have evidently got a good thing We understand the stock is largely taken abroad Some of the shrewdest of our oil operators have the management, and they can hardly fail to make it pay Altogether, the oil excitement of 1868 may equal that of any former period"

That an immense swindle is to be attempted upon fin metal gentlemen in England is evident This Oil Company does not own a single acre of land, nor can it show a deed for any portion of the lands upon which their bonds are based They have only ninety days refusal for various pieces of land, in the aggregate about 500 acres, some of which is not within, or in the range of oil territory by twenty miles All the company has invested in the survey, and the money for that was borrowed

The whole amount of land in their schedule is not worth at the utmost $500,000 in currency £70 000 sterling. Yet upon this small amount of property which the company do not yet own, they have issued first mortgage bonds to the amount of £500 000 sterling equal in United States currency to $3 500,000 The bonds were printed in New York sent to Erie, Pennsylvania, and thence sent The "gentlemen" who have managed this matter, Mr A P Longbottom, of London, and a Colonel Chamberlain, formerly on Jeff. Davis' staff sail on Wednesday next, Aug 26th, for England, to launch their grand scheme upon Lombard street We would warn our English cousins to let the First Mortgage Bonds of the Anglo American Oil Company alone They are not needed in any lines

A NEW ENTERPRISE A refining interest of this section has been moderately prosperous during the past five months, and additions have constantly been made to its capacity Within a week or two plan of one of the largest refineries in the country, to be operated on improved principles, was put on foot among several of our citizens, and it was determined to commence the erection of the same at once Location was fixed upon on the flat between the railroad track and Oil Creek, near the foot of Pine street Ground was broken several days since and has already been commenced on the foundations of the stills, tanks &c The still will be eight feet high by thirty feet in diameter, and is to rest on a brick foundation which will be of the most substantial kind and will be built of the iron and bricks composing the old works that is to be changed three miles west and re erected to produce the refined oil An iron tank of two thousand barrels capacity is to be placed on a foundation of stone, and a fountain of steam boiling hot will be forced through the contents of the tank for the purpose of separating the benzine from the oil The height at which the tank will be placed will allow the oil to run into the still by its own gravitation The condensing tank will be of iron and of capacity equal to two thousand barrels In order to supply this tank with cold water three or four artesian wells will be sunk to whatever depth may be required, and the water will be pumped from them into it A tank of similar kind of one thousand barrels capacity will be used to hold the oil after having passed through the condensing tank The treating tank will be of between fifteen hundred and two thousand barrels capacity It will be made of wood and lined with sheet lead. The benzine tank is to be of five hundred barrels capacity It will be of wood and partly sunk in the ground The part above ground will be bricked up Besides the still and the tanks mentioned, there will be two car stills, each of sixty barrels capacity and a five hundred barrel tank which is to be used for various purposes The boiler which is to furnish the steam needed to run the engine &c , will be of thirty horse power, and is to be set on a stone foundation and enclosed with brick and iron

The location for the refinery is an excellent one The crude oil can be run into it from the tanks on the hill on the opposite side of the Creek without expense The means for unloading coal, &c , and for loading the refined, is of ample sufficient and there can be no doubt but that the necessary supply of good water can be found As before stated, work has been commenced on the foundations of the tanks and stills, and it is thought that the refinery will be in operation within two months

HOW MANY GALLONS CONSTITUTE A BARREL OF PETROLEUM — An interesting question as to the number of gallons which should constitute a barrel of petroleum was recently tried in the Supreme Judicial Court of Massachusetts before Judge Hoar The contract was calling 1 000 barrels of oil, at so much a gallon, and the quantity of oil purchased would, therefore, be regulated according to the barrel contained a greater or less number of gallons By the lawful Pennsylvania thirty one and a half gallons constitute a barrel, liquid measure, but the plaintiff in the case offered evidence to show that, according to the custom of the petroleum trade, a barrel should contain forty two gallons The Judge admitted evidence of the custom, ruling that the oil had been sold to be drawn from tanks the law of Pennsylvania would control the custom, but inasmuch as the oil was sold in barrels, also much per gallon, the evidence was admissible, and that the actual number of gallons in the barrel might be shown by custom

PERSONAL — The Rev H Tendon Rector of St Jim Memorial Church who has improved a brief vacation by travel in the Northwest returns to his parish to day charged with invigorated health The church, which has been closed during his absence, will be re opened for services to morrow The interior has been newly painted, and presents an improved appearance

The Rev D A Cummins, of the Spring Garden Church, Philadelphia, who officiated in the Presbyterian Church last Sabbath will preach at Petroleum Centre He returns home on Monday

Mr C Pomeroy, of the Potter Paper Manufacturing Company of New York, was in town yesterday, on a flying visit to Erie and Pleasantville

Miss Ellis, Principal of the Mount Holyoke (Mass) Seminary, and Miss Shattuck, Assistant Principal of the same institution, returned yesterday from a trip to the Lake Superior mining region, halting at Titusville to take a view of the oil region They visited all neighboring points of interest

SANFORD opens to night at Corinthian Hall with such stars as Villiers, Harry Robinson, Edward, Boles and Dougherty, the Allegheny Boys, and a host of others This entertainment will be first class in every respect, and entirely free from the objectionable features that usually mar performances of like character The ballad singing and instrumental music of this troupe are very fine, while the entire programme presented is one that our citizens will not have the opportunity of seeing again Do not fail to secure tickets for this evening. Sanford and Mortimer will appear

Frank Blair's Fenian Speech

In the summer of 1866 Frank P Blair, now Democratic candidate for Vice President, made a speech at St Louis, in response to a serenade by a Fenian procession, of which the following is a full and accurate report

"GENTLEMEN I am with you heart and soul and heartily say, 'God bless the Finnegans' [A voice — Fenians, General] I know what I am talking about, and I say Finnegans (laughter and confusion) And I say that I hope to see the cause flourish and prosper, and shall bless the day when Ireland is governed by Irishmen In accomplishing this laudable undertaking, I will do all I can to assist you I will place myself, if needs be, at your head, march with you to Staten Island, oversee your embarkation, will stand on the most elevated bluff of the coast, and as you raise the green emblem over the Stars and Stripes, while your steamers under full headway are turning their prows to the east, I will say good bye, God bless you, and you may be successful in your undertaking May you lift the British lion out of his boots, and wrest from his grasp the emerald gem of the sea, but whether or not you shall succeed in this endeavor, *may you each and all remain in Ireland or elsewhere, and never again set foot upon these shores*' You are wanted there and *we can get along without you*'"

Here Frank was choaked off and hooted from the stand

The Titusville Republicans will, of course, go for Blair—every mother's son of them Why shouldn't they, when Blair *goes for* the "Finnegans," as he calls them? They ought to have this eloquent Democratic speech fully framed and set up in the Democratic Club room, to be read by the Chairman at every ratification meeting The Finnegans" should swing their hats and give three cheers for Seymour, and "Tiger" for Blair For do ye mind what the General says "*May you each and all remain in Ireland or elsewhere and never again set foot upon these shores*" Is it the likes of Blair, you are going for the Know Nothing spalpane?

Pleasantville Items.

One month ago to day we gave a statement of the daily production of oil from the different wells in what is known as the Pleasantville Oil District, and that exhibit showed a total daily production in the district at that time of 1 528 barrels Below will be found a similar statement of the production at this date which has been carefully ascertained and may be relied upon as quite accurately correct, and in no instance over rated

A SKIRMISH BETWEEN A CONSTABLE AND A SHORT OIL SELLER — A day or two ago one Joe Webb, who has been operating, one of the small producing wells on Bennington Hill, on shares, concluded to become a short seller on oil, and to this end disposed of about two hundred barrels more than he had on hand To cover his shorts when the time for the delivery of the same came, he resorted to the tank of the Mary Ann well, from which he delivered two hundred and fourteen barrels of oil without the owners' knowledge or consent Inspection and the loss of the oil were discovered by Ely and a warrant was shortly after issued by Justice Donaghy of Petroleum Centre It was put in the hands of Constable McHugh of Pioneer who started in search of the defaulter

Some time during Thursday night last the Constable found Webb at Petroleum Centre, and at once proceeded to arrest him A skirmish ensued in which Webb's outer garments suffered severely The skirmish continued for some time, when the Constable, by assistance from the crowd that had gathered to witness the business, got the latter covering, and put Mr Webb in charge of officers to await the latter's return to Titusville Webb's friends offered to settle the matter, but the Constable would not have it so, and Webb will have to settle with the Court

Clarion Heard From.

We direct attention to the address of the Clarion County Republican Committee, published on our first page to day It is a clear and forcible exposition of the Congressional issue, and a most emphatic protest against the disorganizing course pursued by the committees of Crawford, Mercer and Venango, in the interest of disappointed candidates, for the purpose of defeating the regular nominee of the party and electing a Democratic Representative in the 30th District

The Clarion Committee refuse to sanction the bolt, or take any part in the new conference. They declare that it would be "treason to the party, an act suicidal to all engaged in it" Let every Republican voter read this important address, and contemplate the consequences of supporting the candidate of a *three cornered convention*

The "Anglo American" Humbug—Letter from H. H Hunt, Esq

TITUSVILLE, Aug 21, 1868

Editors Morning Herald

Please allow me sufficient space in your reliable vehicle of oil news, to correct a part of our correspondence to the Erie *Daily Dispatch* in the issue of that sheet of the 20th, as follows

TITUSVILLE Aug 18

Yesterday, business was called to Titusville, and we must acknowledge ourselves agreeably surprised at the activity prevailing there for unlike any preceding in the oil history, of which we have witnessed the culmination of the speculative form Operations are buying a few acres in fee for real development or leasing for thirty on lands considered tested by prior operators and adjacent to producing wells, instead of tying up an amount of funds on things tract with the expectation of stocking the same, or selling at an advance in time to realize for the payments to come, thus giving the present location a permanency of operations not heretofore experienced in seeking for or testing new territory

Since the above published article, we have been consulted for a minute or two, as we have since earned rumors which we look upon as fact that there is now being organized one of the most gigantic oil swindles ever perpetrated on the public in the shape of the "Anglo American Oil Company, limited" The old saw of a "wheel within a wheel" is here applicable, and since the inside wheel is visible we are satisfied that an only fool is being prepared for Johnny Bulls over the pond—as its name shows it to be an English Company—galvanized with a American charter

We make this explanation and correction to set ourselves right before bona fide operators and not for the love of our English cousin for we would prefer to see them invest in flush oil stocks which would compare favorably with Confederate Cotton Bonds. Perhaps a proper admixture of the two might cause the rot to stick We therefore advise cotton bond holders to invest in Anglo American, "The hair of the same dog cures the bite" Without further comment, we append the card of Jay Cooke, whose name had been used in connection with this company

Democratic County Convention Resolutions.

We cheerfully publish by request of a Democratic subscriber the following resolutions adopted by the Democratic County Convention

1st Resolved by the Democracy of Crawford county in Convention assembled that we solemnly and cordially endorse the platform of principles adopted by the National Democratic Convention lately assembled in New York

2nd Resolved, That we hereby re affirm our fidelity to the Constitution and Union as established by the fathers of the Republic fidelity to the rights of the States fidelity to the Union and to the Congress, fidelity to the principles of local self government, and devotion which by paying the war debts in gold and silver will relieve from the shoulders of labor the burden now imposed upon it, and to that end we demand equality in the taxation of every species of property, according to its value

3rd Resolved, That we recognize in Horatio Seymour of New York one who is true to the Democratic faith and who can be safely trusted with the power of the Executive office of the country That confiding in his well known, long tried and firm patriotism, we are ready to follow him with unfaltering fidelity in re establishing the principles of the Constitution in their original purity, that those principles should be enforced by a constitutional majority of the people of the States against all parties and all aid

4th Resolved, That we recognize patriotism and integrity as worthy of support in our candidate for the Vice Presidency, we recognize the higher and more important qualifications of ability in a statesman in times of peace

5th Resolved, That we cordially endorse and ratify the nomination of Charles R Buckalew, for Auditor General, and Gen W H Ent, for Surveyor General, by our State Convention, the candidates for Congress that will be nominated by the Congressional Conference as well as the County Ticket this day nominated

6th Resolved, That while we are proud of the growth and wealth of our County we deplore the reckless extravagance and profligacy in the conduct of the people's money by our County Commissioners in county buildings and bridges and [illegible] that it is much reduced [illegible] and plunder by their partizan friends, and call upon all good citizens and honest men to join with us in the election of county officers who will discharge their duties with fidelity and economy

A Campaign Song.

ADAPTED FROM SCOTT.

Arouse! arouse! the standard flies,
The bugle sounds the call;
The loyal flag floats in the breeze,
The name of Grant swells through the trees,
Swells from the lips of all.

From high Katahdin's peaks we come,
A band of brother's true;
From Colorado's hills and vales,
From California's golden dales,
The gallant boys in blue.

Though Seymour's minions cry for war
We know their ways of old,
They slept when Southern rebels fought,
They held the sword, but used it not,
Their birthright's would have sold.

Oh! had they marked the warning call
Their father's spirits gave,
Foul treason ne'er their ranks had mown
Nor honest patriots, desperate grown,
Dug their dishonored grave.

Shall we, too, bow the stubborn head,
In Freedom's temple born,
Tremble with knee and shoulder bent,
Before a dastard President,
Or brook a Seymour's scorn!

No! once again throughout the land
We'll shout the watchword out;
Our votes shall prove again to-day
That Freedom and Honor still hold sway,
Still can foil Treason root.

Arouse! arouse! for General Grant
And Colfax let us shout!
We'll save our nation's honor yet,
Repudiate ne cent of debt
And fling our banner out.

At the Massachusetts House of Correction, Capt. Robbins has for many years kept a record of the weights of convicts, both at the time of their admission and discharge. From his recent annual report it appears that the average gain in weight has been 6 pounds 1 ounce 7 drachms (no base gain in drams.) At Deer Island, for the same period, the women gain an average of 9 pounds, and the men 7¾ pounds. These facts show the effect of wholesome food, eaten at regular hours.

On Friday morning a police officer from Memphis, Tenn., arrived in Cincinnati with a young man named Wm. Beadle, whom he was taking to New York to answer a charge of forgery of some $7,000; but awaking on the steamer that had brought them up from Louisville, he found that his prisoner was a prisoner no longer. Beadle was not shackled, and when the boat touched the shore easily escaped from the state-room in which his guard was quietly sleeping.

IN THE DISTRICT COURT OF THE United States, for the Southern District of New York.

In Bankruptcy

In the matter of George F. Chester, Samuel L. Mitchill, Junior, and Henry R. Lyle, Bankrupts.

Notice is hereby given that the undersigned Isaac Dayton, a Referee appointed by order of his Court, made on the twelfth day of August, 1868, on the petition of Samuel L. Mitchill, will sell at public auction, at the westside of the City Hall, ——, in the City of New York, on the twelfth day of September, 1868, at twelve o'clock, noon, the following described lands, stock, interest in claim and judgment, and contracts; the same being held and owned by the said petitioner as collateral security for an indebtedness of the said bankrupts, viz:

1. The Lyle Farm, so called, containing upwards of one hundred and three acres, situated in the township of Allegheny, in the County of Venango, and State of Pennsylvania.

2. Five undivided sixteenth parts of the White Farm, so called, containing about seventy acres, situated in Harmony Town hip, in said Venango County.

3. One undivided sixth part of the Guild Farm, so called, containing about one hundred and forty-five acres, situated in said Harmony Township.

4. One undivided half of a strip of seven acres on the north side of the N. F. Stowell Farm, so called, situated in said Allegheny Township.

5. A lot of land, containing less than one acre, situated near the Hyndman Refinery, in the town of Cornplanter, in said Venango County, formerly belonging to Thomas Turner.

6. A lot of land 60 feet square, with frame house thereon, situate on the east side of Washington street, 84 feet north from Pine street, in Titusville Crawford County, Pennsylvania.

7. 5,884 shares of the capital stock of The National Oil Company of New York, par value $5 per share.

8. 10,924 shares of the capital stock of The Hudson River Petroleum Company, par value $10 per share.

9. 500 shares of the capital stock of the Webster Petroleum Company, par value $5 per share.

10. All the right, title and interest held by the said petitioner, under and by virtue of an assignment thereof made to him by said bankrupts, in and to a certain claim and in and to certain action brought thereon by them and others against John S. Dickerson, Frances A. DeWint, Edgar Reed and John W. Jones, upon which a judgment was recovered in the Supreme Court of the State of New York, (Dutchess County,) December 19, 1866, against the said Dickerson, Reed and Jones for $63,378.00 in favor of the plaintiffs, and from which judgment an appeal is now pending.

11. A contract made between the said Samuel L. Mitchill, Junior, and George C. Carpenter, dated April 26, 1865, for the conveyance of certain land and household interests on East Hickory Creek and Cherry Run, in said Venango County; Recorded in the Recorder's Office of said County, in Deed Book R. R., page 692, and assigned to said petitioner September 15, 1866.

12. Another contract between the said parties as the last above mentioned, and assigned at same date to the said petitioner; the said contract being for the conveyance of the Shaw Farm, so called, situate in said Cornplanter Township, and recorded in the Recorder's Office of said Venango County, in Deed Book, R. R., page 65.

Said five last above described, were mortgaged by said bankrupts to said petitioner by two instruments, dated February 1, 1866, and recorded in the Recorder's Office of said Venango County, February 8, 1866, in Mortgage Docket No. 2, pages 348 and 353, respectively; the first described lot was also mortgaged by said Henry R. Lyle to said petitioner by an instrument dated February 2, 1865, and recorded in said Mortgage Docket No. 2, page 236; said second described lot was also conveyed to said petitioner by said Henry R. Lyle and his wife, by deed dated December 2 1865; said third described lot was also conveyed to said petitioner by said Henry R. Lyle and his wife, by deed dated October 19, 1865, said sixth described lot was mortgaged to said petitioner by said bankrupts by an instrument dated February 1, 1866, and recorded in the Recorder's Office of said Crawford county, February 8, 1866, in Mortgage Book 1, page 319 and 320, and was also conveyed to said petitioner by said bankrupts, by deed dated September 15, 1866.

All the right, title and interest of said petitioner (acquired under said instruments and otherwise) and of the said bankrupts and of their assignee in Bankruptcy will be sold, together with said mortgages and contracts. The property will be sold in separate lots as described, and for cash. Complete description of the property can be seen at the office of the undersigned, No. 202 Broadway, New York, and at the law office of George A. Chase, Esq., on Franklin street, second door north of the Mansion House, Titusville, Pennsylvania.

The American Cooking Stove.

ANOTHER PATENT SUIT.—We understand Messrs. Shear, Packard & Co., have been compelled to commence suit against Hunt & Miller, of Buffalo, for infringing the patent on the Ash Sifter in the American Cooking Stove. This is the fifth suit they have been compelled to bring against different parties for infringing the different patents in this Stove. The four previous suits have resulted favorably for S. P. & Co., and they are determined to follow up all cases of infringement until others cease from appropriating their improvements.—*Albany Evening Journal, July 20th, 1868.*

All persons are cautioned against selling or using Stoves with a Shaking Ash Sifter in the hearth, or under the grate, as this improvement is fully secured to us by five different Patents, and all persons selling or using Stoves with this improvement, will be liable to prosecution for infringement, as we have granted no licenses to other parties to make or sell this improvement, and all infringements will be promptly prosecuted.

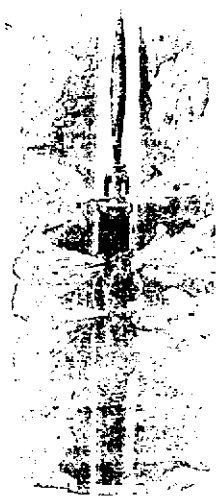
OFFICE AT THE RED PLANING MILL



Heretofore we have in our circulars, alluded to a series of experiments being made with Nitro Glycerine and other explosives. We now announce that we have succeeded, over beyond our most sanguine expectations as regards the safety handling and the intense force and power of the explosive, and have established a method whereby the exact time the Torpedo is to explode and the distance from the well it is to be placed can be determined with certainty. Torpedoes arriving from the manufactory will be charged and placed in wells at the shortest notice. Parties desiring our services will please address us at our office in New York, or call on us at the Roberts Red Planing Mill, Titusville, Pa., where we will be found at all times ready to attend to orders.

Our charges for torpedoes, including charging and placing in well, will be as follows:

[illegible] quarts, equal to 150 quarts.....$125
[illegible] quarts, equal to 200 quarts.....150
[illegible] quarts, equal to 250 quarts.....175
[illegible] quarts, equal to 300 quarts.....200
[illegible] quarts, equal to 400 quarts.....250

CAUTION.—The public is cautioned against using [illegible] Torpedo, as we have been duly appointed by the Commissioner of Patents for the United States, custodian of the Torpedo and all other explosive materials furnished, and have the sole right of exploding by other parties by a direct infringement of our rights, and we shall hold and work all others to a strict accountability for such infringements.

SUCKER RODS.

ONE MORE STEP IN ADVANCE!

NO MORE PARTING OF SUCKER RODS!

NO MORE DELAYS FROM

DEFECTIVE JOINTS!

NO MORE RIVETS IN

WORKING BARRELS

SUCKER RODS

with

Innis' Improved Socket Joints

ARE NOW OFFERED TO THE PUBLIC.

Parties using these rods will be exempt from the usual series of accidents attendant upon the use of the ordinary winged joints with rivet.

Each end of the rod is dovetailed into a socket with a wedge, the socket also serving for a box; and connection made by a detached double pin.

The joint is lighter and stronger than the winged joint, strengthening, stiffening, and strengthening the whole line of Rods.

The working is perfect, giving complete satisfaction.

Rods warranted not to part at coupling.

To be had of Hardware dealers throughout the Oil Regions, or of the Manufacturer.

WM. J. INNIS, Pioneer.

Price 16 cents per foot.

Patent applied for.
